

DARSH YADAV

Computer Science Engineer

+91-8141652007 | darshyadav078@gmail.com | github.com/Darsh01k

Portfolio <https://darsh-dev.vercel.app/>

PROFESSIONAL SUMMARY

Computer Engineering student with a CGPA of 7.44 and a strong foundation in Java, Python, MySQL, and Web Development. Experienced in building practical full-stack and AI-powered web applications using AI-assisted development, prompt engineering, and rapid prototyping workflows. Familiar with GitHub and deployment workflows using Vercel, Render, and Neon. Seeking entry-level opportunities as a Java Developer, Software Developer, or Full Stack Developer to apply technical skills, continue learning, and contribute to impactful projects.

PROFESSIONAL EXPERIENCE

DATA ANALYSIS AND MACHINE LEARNING INTERN | NIELIT

September 12, 2022 – September 23, 2022

- Completed a two-week internship focused on Python programming, data analysis, machine learning fundamentals, and data visualization.
-

KEY PROJECTS

MediFlow: Built a multi-role healthcare management platform that connects patients, doctors, hospitals, and administrators in one system for appointments, onboarding, profile management, and operational workflows.

<https://mediflow-care.vercel.app/>

ClipCheck: Built an AI-powered fact-checking platform that analyzes video links or text, extracts factual claims, verifies them against web sources, and generates structured reports with verdicts and evidence.

EDUCATION

B.Tech in Computer Science Engineering | Uka Tarsadia University, Bardoli

2024 – Present

Diploma in Computer Engineering | Government Polytechnic, Daman

2021 – 2024 | CGPA: 7.89

Secondary School Certificate | Holy Trinity Secondary and Higher Secondary School, Daman

Passed 2020

• TECHNICAL SKILLS

Programming Languages:

Java, Python

Web Technologies:

HTML, CSS, JavaScript

Database:

MySQL, Neon PostgreSQL (familiar)

Tools & Platforms:

GitHub, VS Code, Android Studio,
Antygravity, Opencode

AI & Development Skills:

- Prompt Engineering
- AI-Assisted Development

Core Concepts:

- Cybersecurity Fundamentals
- Object-Oriented Programming (OOP)
- Database Management Systems (DBMS)

Deployment / Hosting:

Vercel, Render(familiar with deployment workflows)
